Dear Mr. Schnell,

This communication is the Bonneville Power Administration's (BPA) final response to your request for agency records made under the Freedom of Information Act, 5 U.S.C. § 552 (FOIA). Your request was received on November 29, 2024, and formally acknowledged on December 17, 2024.

### Original Request

From your November 29, 2024, request and from your November 27, 2024, telephone conversation with BPA personnel, the agency understands that you seek, "...information that highlights the [software] technology vendors and consulting organizations that the BPA is working with as of 11/27/24, for example MCG Energy. I would also like to review the [software] technology vendors and consulting orgs that have unsuccessfully competed against your current technology vendors in RFPs, if possible."

### BPA's Re-Scope Inquiry

Via December 6 and 13, 2024, emails to you the agency inquired on a needed clarification. The agency sought further definition for "information that highlights [...third parties...] that BPA is working with." On the telephone you expressed interest in getting solely a list of BPA's current software technology vendors and consultants. That might be a notably lengthy listing because BPA uses hundreds of applications and systems. To help us help you, we asked you to define more of what information you seek, e.g., a specific type of software vendor.

### Clarifications

You provided a clarification, received December 16, 2024, indicating that you seek solely a "... list of software vendors that BPA uses that relate to the following categories:

- Asset management software
- Energy trading and risk management software (ETRM)

- credit risk management software - managing credit risk, including counterparty, contract, collateral, exposure management
- energy accounting system - managing time series data
- billing software
- permit to work software”

In re your original request for, “...the [software] technology vendors and consulting orgs that have unsuccessfully competed against your current technology vendors in RFPs...” and the likelihood that the agency will withhold that information under 5 U.S.C. § 552(b)(3) (Exemption 3) and 41 U.S.C. § 4702 (which exists as a prohibition on the public release of proposal-submittal information that otherwise might be responsive to a FOIA request), the agency will scope out/not collect the requested information on unsuccessful competitors. The benefit to you is that our collections and reviews process on what else you seek will go along quicker, and we'll be in a better position to provide the other information you seek more quickly. Thank you again for working with the agency to refine your FOIA request.

### **Response**

Knowledgeable subject matter experts in BPA's Corporate & Infrastructure office in Supply Chain Services searched for and gathered one page of records responsive to your request, consisting of 36 vendors. That page accompanies this communication, released in full.

### **Certification**

Pursuant to 10 C.F.R. § 1004.7, I am the individual responsible for the records search and information release described above. Your FOIA request BPA-2025-01076-F is now closed with the responsive agency information provided.
