Dear Mr. Manning,

This communication concerns your request for Bonneville Power Administration (BPA) records submitted under the Freedom of Information Act, 5 U.S.C. § 552 (FOIA). BPA received your records request on May 29, 2025. We formally acknowledged your request on June 24, 2025 and provided you with a final response on May 8, 2026.

Supplemental and Discretionary Release

As communicated to you in its May 8, 2026 response letter, BPA provided PacifiCorp an opportunity to object to the release of their confidential commercial information. In response, PacifiCorp provided BPA with a set of additional communication records that, in their opinion, were responsive. Most of these records are outside of the date range in your request and were consequently not responsive. However, knowledgeable Subject Matter Experts in BPA's Transmission Sales, Transmission Account Services, and Customer Service Engineering Contract Administration offices searched for, and collected, the corresponding records from BPA's network. BPA is providing these records to you in a supplemental release. Three of the records also contain information belonging to Idaho Power, and BPA is withholding those records from this discretionary release.

Questions about this communication may be directed to E. Thanh Knudson, Case Coordinator (ACS Staffing Group), at 503-230-5221 or etknudson@bpa.gov or James King, FOIA Public Liaison, at jjking@bpa.gov or at 503-230-7621.

Sincerely,

Candice D. Palen
Freedom of Information/Privacy Act Officer

Subject: OATT 17.5 Notification TSRs 96086097, 96086102, 96086112, 96086119, 96086125 and 96086133

Hi all,

On February 7, 2022, the Bonneville Power Administration's Transmission Services (BPA) received 6 Transmission Service Request(s) (TSR) submitted by PacifiCorp for Redirects of Long-Term Firm Point-to-Point transmission service related to Service Agreement No. 04TX-11722 as listed below:

96086097	PAC	2022-02-07 08:41:13 PS	REDIRECT	RECEIVED	11722	241
96086102	PAC	2022-02-07 08:42:18 PS	REDIRECT	RECEIVED	11722	145
96086112	PAC	2022-02-07 08:43:42 PS	REDIRECT	RECEIVED	11722	84
96086119	PAC	2022-02-07 08:45:25 PS	REDIRECT	RECEIVED	11722	40
96086125	PAC	2022-02-07 08:46:31 PS	REDIRECT	RECEIVED	11722	35
96086133	PAC	2022-02-07 08:47:43 PS	REDIRECT	RECEIVED	11722	55

Pursuant to the BPA Open Access Transmission Tariff (OATT) Section 17.5, this serves as notice that BPA has received PacifiCorp's completed application for the TSR(s) listed above and the TSR(s) have been placed in STUDY status over the Open Access Same Time Information System (OASIS) and is currently evaluating the TSR(s) for Long-Term Firm service.

If you have any questions, please call me at (360) 619-6460.

Thank you,

Tobin Mussen

Subject: Longhorn Redirect TSR Conformances - Status?
Attachments: 5-Day Notice to Submit Conformance TSRs for Longhorn Newpoint Redirect Requests

Rohan,

Following our discussion last Friday regarding the risks of getting stuck at the Coyote Springs POR, and losing your existing service paths, if the requested Longhorn POR is not constructed, have you decided not to confirm the Longhorn Redirect TSRs to Coyote Springs?

As a reminder, your deadline to submit the conformance TSRs is close-of-business tomorrow, April 22. If you do not submit the conformances by the deadline, BPA will not authorize and will not offer the requested service.

Please let us know your intentions so we don't get alarmed if we don't see your conformances entered by tomorrow.

Thanks.

E

Subject: 5-Day Notice to Submit Conformance TSRs for Longhorn Newpoint Redirect Requests

Rohan,

The Bonneville Power Administration (BPA) has determined that there is sufficient transmission inventory to make an offer of service for Redirect TSR Assign Refs 96086097, 96086102, 96086112, 96086119, 96086125 and 96086133 associated with the requested Longhorn Newpoint. Under Section D.6.b.i. of BPA's Requesting Transmission Service Business Practice (Version 41), when a Customer designates a Newpoint at an interconnection point where no substation yet exists, the Customer must submit a Conformance TSR.

This provides notice to PAC to submit the following Conformance TSRs. You have five (5) Business Days from this notification to submit the Conformance TSRs. Following submittal of the Conformance TSRs, BPA will then complete the contract process and tender service tables. The Conformance TSRs must be submitted as Pre-Confirmed and must contain the following parameters:

Conformance TSR for 96086097:

Request Type: Redirect
SOURCE: COYTSPRGS500
POR: COYOTESPRNG1
SINK: ALVEY500
POD: ALVEYPAC
MW: 241
Sale Ref: 11722

Subject: Withdraw Longhorn TSRs

Rohan,

Thanks for keep me informed last week regarding PAC's intention to not confirm the six Longhorn redirect requests.

The Reservation Desk requests PAC to please withdraw those TSRs over OASIS. BPA has declined the reservations.

Thank you.

E

Subject: RE: Thursday B2H Agenda?

Hi Rohan,

Eric is out of the office this week, so I am following up on his behalf.

We were also thinking that continuing the discussion about the Longhorn redirects on Thursday would be helpful as we have some additional information to share. Jeff called Rick V. on Monday afternoon to share the information and my understanding is that both agreed to have our teams follow-up.

After our meeting last Thursday, the BPA Reservation Desk performed an informal “what if” analysis (non-binding and for informational purposes only, based on the queue at the time of the analysis) assuming that PacifiCorp resubmitted the same redirect requests that were submitted last spring. The “what if” analysis is indicating that BPA would not have ATC to grant the redirect requests at this time due higher queued requests. This “what if” evaluation is further indicating that the redirect TSRs would be referred to the 2024 cluster study (the opportunity to participate in the 2023 cluster study has already passed; many of the higher queued requests are participating in the 2023 cluster study). The 2024 cluster study would identify the plan of service for participating TSRs and is estimated to be completed in early summer of 2024 (this is a very tentative timeline).

There are some possibilities - though BPA cannot provide any certainty- that ATC could become available for the redirect requests before the 2024 cluster study is completed. For example, after the 2023 cluster study is completed (estimated for May of 2023, but this date could get pushed out), some of the higher queued requests may elect not to proceed with the 2023 cluster study plan of service. Requests that do not elect to proceed with the plan of service would be removed from the queue (estimated around July, 2023, but this date could get pushed out). If enough higher queued requests are removed from the queue, it is possible that BPA could have ATC become available for PacifiCorp’s potential redirect requests. Again, the timing for this potential to play out is summer, 2023.

The BPA SMEs will be available to discuss this “what if” analysis on Thursday. We will schedule the meeting for 2 hours (10-12). Tom, Adrienne, and I had already planned on meeting for Thursday, 11-12, so I will cancel that separate meeting so we can make use of the time.

Beth Loebach

Subject: [EXTERNAL] RE: Thursday B2H Agenda?

Hi Eric,

For our meeting this Thursday 9/15, we wanted to continue our discussion on the topic of Longhorn redirects. We thought the meeting last week was extremely helpful, and we wanted to have a follow up discussion with you SMEs regarding the submittal of these redirects. We would especially like to better understand the possibility of these redirects being granted at a future date, given that we already encumber 600MW of firm capacity on account of the parent reservations from McNary and LaGrande. Given that we already encumber capacity, we are trying to understand how much certainly we have in terms of accomplishing a successful redirect at a future date, when we potentially have received the notice to proceed for the B2H project. This especially in light of your current queue requests that have a POR of Longhorn (snapshot below).

We would greatly appreciate if you could make your SMEs available for this discussion. Also, it may be beneficial to lock in an extra hour for this meeting just in case more time is needed to finish up our conversation and any other items that BPA might want to discuss.

Thank you,
Rohan.

Rohan,

Beth or Don will get back to you on this.

It might help if we can move the meeting to 11 am?

E

Subject: [EXTERNAL] RE: Thursday B2H Agenda?

Eric –

We discussed internally and given that the CFS topic is going to be discussed a length on Friday 12:00-1:00, we thought it would best to continue our conversation from last week about the 600MW of redirects to Longhorn 500kV.

We discussed 2 scenarios –

- First, related to B2H getting delayed, in which case there is the option to defer taking service. We understood that that would be subject to competition assuming there was a challenger.
- Second, if B2H gets cancelled and does not move forward – how do we guarantee continued service from our existing PORs of McNary and LaGrande? Assuming that the Longhorn redirect TSRs would have a start date of 7/1/2026, if B2H gets cancelled, we were thinking about submitting redirect requests back to the parent paths starting 7/1/2026 or 7/2/2026. As you can imagine, in either scenario, i.e., B2H or no B2H, it is imperative for us to maintain service from PACE to PACW.
 - From a chronological standpoint – we were thinking that if Longhorn 500kV is energized sometime in Q1/Q2 2024, we are assuming we will be asked to submit conformance TSRs to the Longhorn point from Coyote Springs. Until then our Newpoint TSRs will have a POR of Coyote Springs.

We think having a follow up discussion with Team BPA about these topics, would be supremely beneficial for us, as we are wanting to submit those redirect requests as soon as possible, to preserve our queue position, since we have no way of knowing how competitive Longhorn will become in the coming years.

Also – if time permits we can also chat about the Conditional Firm topic.

Thanks,
Rohan.

Rohan,

Does PAC have B2H topics to discuss this Thursday morning?

Neither Katie or I can attend this Thursday (and, I'm also out 9/7 to 9/16, including next week's meeting).

Please let Beth know if you have agenda topics for this week. Otherwise, BPA may be inclined to cancel this week's meeting. BPA has not identified topics that will be ready for discussion this week.

Thanks.

E

Subject: 30 Day OATT 17.5 Notification PacifiCorp, 04TX-11722 TSRs

Dear Mr. Chatterjee:

On September 15, 2022, the Bonneville Power Administration's Transmission Services (BPA) received 6 Transmission Service Request(s) (TSR) submitted by PacifiCorp for Redirects of Long-Term Firm Point-to-Point transmission service related to Service Agreement No. 04TX-11722 as listed below:

OASIS Received Date and Time	Reservation - Scheduling (POR)	Reservation - Scheduling (POD)	Start	Stop	Reserved Capacity (MW)	Assign Ref
09/15/2022; 13:49	NEWPOINTBPAT	ALVEYPAC	07/01/2026	12/01/2041	241	97889761
09/15/2022; 13:51	NEWPOINTBPAT	ALVEYPAC	07/01/2026	12/01/2041	145	97889770
09/15/2022; 13:53	NEWPOINTBPAT	ALBANYPAC	07/01/2026	12/01/2041	84	97889788
09/15/2022; 13:55	NEWPOINTBPAT	SANTIAMPAC	07/01/2026	12/01/2041	40	97889790
09/15/2022; 14:01	NEWPOINTBPAT	MCNARY69	07/01/2026	12/01/2041	35	97889809
09/15/2022; 14:02	NEWPOINTBPAT	ROUNDUP69	07/01/2026	12/01/2041	55	97889817

Pursuant to the BPA Open Access Transmission Tariff (OATT) Section 17.5, this serves as notice that BPA has received PacifiCorp's completed application for the TSR(s) listed above and the TSR(s) have been placed in STUDY status over the Open Access Same Time Information System (OASIS).

BPA is unable to make an offer of service at this time, but will continue to evaluate PacifiCorp's TSR(s) for Long-Term Firm Service.

PacifiCorp may, at any time prior to the posting of an OASIS notice of BPA's decision to conduct a Cluster Study of eligible TSR(s), request in writing that BPA perform a System Impact Study of the TSR(s) individually rather than in a Cluster Study.

If you have any questions, please call your Account Executive at (360) 619-6006.

Thank you,

Tobin Mussen

Subject: RE: [EXTERNAL] RE: Request for Meeting to discuss Individual Study for PAC's B2H TSRs URGENT

Glad this appears to be working out, per BPA's recommendation. Thanks for asking your team to prepare the individual study agreement for my signature ASAP. Let me know if you need anything from me. Otherwise, I'll look for that. and sign it, as soon as it is available.

Officially, I have noted the date and timestamp of this request as an official request. Unless we get another individual study request, we have time to process. Should another one pop in, I will work with you immediately to issue a study agreement. Chris Gilbert has been notified to go through me for all individual study request prior to approving any.

Ravi

Importance: High

Eric –

Thank you to you and Ravi for meeting with us earlier this afternoon.

Following up from our discussion, I hereby request BPA for an individual study for these TSRs.

Please let me know if anything else is needed from me.

Thanks,
Rohan.

Rohan,

Ravi has requested a meeting with you right away to discuss your 600 MW redirects associated with Longhorn/B2H:

AREF 97889761: 241 MW Redirect, NEWPOINT to ALVEY500 (previously MCNARY230PACW to ALVEY500)

AREF 97889770: 145 MW Redirect, NEWPOINT to ALVEY500 (previously LAGRAN230 to ALVEY500)

AREF 97889788: 84 MW Redirect, NEWPOINT to ALBANY115 (previously MCNARY230PACW to ALBANY115)

AREF 97889790: 40 MW Redirect, NEWPOINT to SANTIAM69PACW (previously MCNARY230PACW to SANTIAM69PACW)

AREF 97889809: 35 MW Redirect, NEWPOINT to MCNARY69 (previously MCNARY230PACW to MCNARY69)

AREF 97889817: 55 MW Redirect, NEWPOINT to ROUNDUP69 (previously LAGRAN230 to ROUNDUP69)

Planning has identified a strategy that may enable BPA to study your requests earlier, and possibly offer service to PAC sooner, than waiting for the next cluster study. We will recommend that PAC request an individual study for these TSRs.

We would like to meet with you ASAP tomorrow to discuss this. Our best availability is between 11 am – 1 pm. Can you meet for half an hour during that window. Let me know and I'll send an Outlook invitation.

Thanks.

E
