

SECOND PURCHASE PERIOD RESOURCE SUPPORT SERVICES ELECTION SUMMARY

The following is an overview of the Resource Support Service (RSS) products customers elected to purchase from BPA to support Specified Resources that will be used for the second Purchase Period (FY 2015-2019). Total average megawatts of non-Federal resources BPA will be providing RSS for under each product are approximate.

Diurnal Flattening Service (DFS) and Forced Outage Reserve Service (FORS)

BPA will be providing DFS and/or FORS for seven non-Federal resources, including three wind projects, two biogas projects, and two hydro projects.

- BPA is providing DFS for three non-Federal resources (about 7 aMW)
- BPA is providing DFS and FORS for four non-Federal resources (about 7 aMW)

Secondary Crediting Service (SCS)

Option 1

- BPA is providing SCS under Option 1 for four non-Federal hydro resources (about 10 aMW)

Option 2

- BPA is providing SCS under Option 2 for three non-Federal hydro resources (about 3 aMW)
