Subject: Comments on 3/12 DAM presentation

Hello,

Thank you for the opportunity to submit comments in response to the March 12 DAM Readiness Public Workshop.

UEC would like to request that the following topic be included in a future meeting for discussion:

For a Load Following Customer with an NLSL, it is my understanding that BPA's current proposal has BPA as the Market Participant for the NLSL load and the Customer as the Market Participant for the resources being used to serve the NLSL load (since resources used to serve NLSL loads are not in Exhibit A).

We would like to explore the option where the Load Following Customer serves as the Market Participant for both the NLSL load and the NLSL resource.

Thank you!

Megan Stratman

Power Supply and Transmission Services Manager
