

Curtailment Priority

1. Curtailments are processed *pro rata* in ascending numerical order. Schedules in each E-Tag Priority are curtailed to zero before moving to the next E-Tag Priority.
 - All Transmission Service Products within each E-Tag Priority are curtailed pro rata or redispatched as a group within the E-Tag Priority.¹
 - For example, BPA curtails all the contributing 1-NS schedules by 100% before moving to 2-NH schedules (if relief is still projected to be needed after curtailing all the 1-NS)
 - 6-CF (i.e. Conditional Firm schedules that are not firm-ed-up) and 6-NN share the same curtailment priority.
2. If relief is still needed after curtailing E-Tag Priorities 0-6, then:
 - “BPA Transmission Services will curtail E-Tag Priority 7-F schedules and order generating facilities that have an obligation to redispatch at the request of BPA Transmission Services under Section 33 of the OATT to provide NT Redispatch on a pro-rata basis if the overload persists. BPA Transmission Services will curtail E-Tag Priority 7-F schedules in proportion to the 7-F flow on the affected Managed Path* and request NT Redispatch in proportion to the scheduled 7-FN and unscheduled firm NT flow on the affected Managed Path.” [*Redispatch and Curtailment Procedures BP D.5.*]
 - That is to say, if NT service is contributing to 15% of the flow, then the redispatch obligation will be 15% of the remaining relief and the scheduled 7-F PTP will be curtailed to provide the remaining 85%.
 - If BPA does not have NT Redispatch resources that can provide the required relief, then curtailment and resupply of 7-FN schedules can be implemented. For example, NT service across an external path.

* For a full list of Managed Paths (referred to as 1:1 and Flow-based ATC Paths) please see [ATC Implementation Document](#) on BPA.gov

¹ Per the TC-20 Settlement Agreement, NT Redispatch currently only applies to Federal Resources.

BONNEVILLE POWER ADMINISTRATION

Transmission Service Reservation Priorities							
E-Tag Priority	Acronym	Transmission Curtailment Classification	Transmission Service Type	Time Horizon	Transmission Service Products	Description	Action
0	NX				N/A	Next-hour Market Service - BPAT does not offer	Curtail
1	NS	Non-Firm	PTP	Hourly	NF-Secondary Hourly PTP	NF PTP Service over secondary receipt and delivery points (Redirects)	Curtail
2	NH	Non-Firm	PTP	Hourly	NF-Hourly PTP	Hourly Service	Curtail
3	ND	Non-Firm	PTP	Daily	NF-Daily PTP	Daily Service	Curtail
4	NW	Non-Firm	PTP	Weekly	NF-Weekly PTP	Weekly Service	Curtail
5	NM	Non-Firm	PTP	Monthly	NF-Monthly PTP	Monthly Service	Curtail
6	CF	Non-Firm	PTP	Yearly	LTF-Yearly PTP	Conditional Firm Service curtailment priority when Conditional (not firmed up)	Curtail
	NN	Non-Firm	NT	Hourly	NF-Hourly NT	NITS ² from sources not designated as a Network Resource	Curtail
	NN	Non-Firm	NT	Daily	NF-Daily NT	NITS from sources not designated as a Network Resource	Curtail
	NN	Non-Firm	NT	Weekly	NF-Weekly NT	NITS from sources not designated as a Network Resource	Curtail
	NN	Non-Firm	NT	Monthly	NF-Monthly NT	NITS from sources not designated as a Network Resource	Curtail
7	CF	Firm	PTP	Yearly	LTF-Yearly PTP	Conditional Firm Service (when firmed up)	Curtail
	F	Firm	PTP	Hourly	F-Hourly PTP	Firm Point-to-Point Transmission	Curtail
	F	Firm	PTP	Hourly	F-Hourly Loss Return	Firm Point-to-Point Transmission	Curtail
	F	Firm	PTP	Daily	F-Daily Loss Return	Firm Point-to-Point Transmission	Curtail
	F	Firm	PTP	Daily	STF-Daily PTP	Firm Point-to-Point Transmission	Curtail
	F	Firm	PTP	Weekly	STF-Weekly PTP	Firm Point-to-Point Transmission	Curtail
	F	Firm	PTP	Monthly	STF-Monthly PTP	Firm Point-to-Point Transmission	Curtail
	F	Firm	PTP	Yearly	LTF-Yearly PTP	Firm Point-to-Point Transmission	Curtail
	FN	Firm	NT	Hourly	F-Hourly NT	NITS from a Designated Network Resource	Redispatch (Flow-based ATC paths) or Resupply on 1:1 ATC paths
	FN	Firm	NT	Daily	STF-Daily NT	NITS from a Designated Network Resource	Redispatch (Flow-based ATC paths) or Resupply on 1:1 ATC paths
	FN	Firm	NT	Weekly	STF-Weekly NT	NITS from a Designated Network Resource	Redispatch (Flow-based ATC paths) or Resupply on 1:1 ATC paths
FN	Firm	NT	Monthly	STF-Monthly NT	NITS from a Designated Network Resource	Redispatch (Flow-based ATC paths) or Resupply on 1:1 ATC paths	
FN	Firm	NT	Yearly	LTF-Yearly NT	NITS from a Designated Network Resource	Redispatch (Flow-based ATC paths) or Resupply on 1:1 ATC paths
